Independent Accountants' Report - Cost Certification

Linwood & Pratt CPAs | Calder Works | Draft dated November 10, 2025

1. Taxpayer: Calder Works Owner LLC, as lessor that will make the election under Section 50(d) of the Code in favor of Calder Works Master Tenant LLC.

2. We have examined the accompanying schedule of qualified rehabilitation expenditures for Buildings A and B for the period from the commencement of physical work through the date of this report.

DRAFT

Basis of preparation

1. Costs were traced on a sample basis to invoices, contractor applications for payment and disbursement records.

2. Building A was placed in service on September 30, 2025, the date on which its certificate of occupancy was issued.

3. At management's direction, substantial rehabilitation has been measured over the sixty-month period available for phased rehabilitations, commencing with the start of physical work on 9/5/2023, in reliance on the Architect's phased rehabilitation plan; we have not independently evaluated whether that plan satisfies the requirements of the applicable regulations.

DRAFT

Schedule

1. Qualified rehabilitation expenditures, Buildings A and B (incurred and projected to completion): $36,450,000, of which $18,900,000 is attributable to Building A and $17,550,000 to Building B.

2. Credit rates applied: twenty percent (20%) federal; twenty-five percent (25%) Virginia.

3. Amounts attributable to Building C and the parking deck have been excluded.

DRAFT

Building B

1. Building B had not been placed in service at the date of this report; management expects completion and issuance of a certificate of occupancy on or about March 31, 2026.

2. Expenditures for Building B incurred after the date of this report will be certified in a supplemental report.

DRAFT

Note

4. Indirect costs were allocated between Buildings A and B on the basis of gross square footage.

5. The qualifying portion of the developer fee was allocated in proportion to eligible hard costs.

DRAFT

Note

6. Indirect costs were allocated between Buildings A and B on the basis of gross square footage.

7. The qualifying portion of the developer fee was allocated in proportion to eligible hard costs.

DRAFT

Note
